

**IN THE CLAIMS**

Please cancel claims 12 and 15 and amend claims 11 and 19 as shown on the attached sheets.

What is claimed is:

11. (currently amended) A module to be received in a frame for cable entries and/or pipe penetrations, the module comprising parts adaptable to receive flat cables and/or pipes having an elongated cross section, wherein the module comprises two end parts and two middle parts and wherein each middle part is formed of a base plate and a number of sheets that may be peeled off to adapt the middle part to the flat cable or the flat pipe to be received.

12. (cancelled)

10

13. (previously presented) The module of claim 11, wherein each end part has a number of sheets, giving a rounded form to receive an end of the flat cable and/or the flat pipe, and which sheets may be peeled off to adapt the end part to the received flat cable or the flat pipe.

15

14. (previously presented) The module of claim 11, wherein the end parts are identical to parts forming a module for cables and/or pipes having a circular cross section.

20

15. (cancelled)

16. (previously presented) The module of claim 11, wherein the base plate is to be directed away from the flat cable or the flat pipe at mounting in a frame.

17. (previously presented) The module of claim 11, wherein the module is made of an elastic material.

18. (previously presented) The module of claim 11, wherein a blind plate  
5 is arranged encircled by the end and middle parts.

19. (currently amended) A frame for cable entries and/or pipe penetrations ~~or the like~~, wherein the frame receives one or more modules according to claim 11.

10

20. (previously presented) The frame of claim 19, wherein the frame has a wedge or other tensioning means.
